#### PLATFORM OP THE

NATIONAL REPUBLICAN PARTY PRINTING

[Adopted at Cincinnati, June 15, 1876.] When, in the economy of Providence, this land was to be purged of human slavery, and when the strength of the government of the people by the people and for the people was to e demonstrated, the Republican party cam into power. Its deeds have passed into his-tory, and we look back to them with pride. incited by their memories and high aims for the good of our country and maukind, and looking to the future with courage, hope and purpose, we, the representatives of the party, the National Convention assembled, make the following declaration of principles: 1. The United States of America is a nation not a league. By the combined working of the national and State governments, under their respective constitutions, the rights of every citizen are secured at home and protected

2. The Republican party has preserved the governments to the hundredth anniversary of the nation's birth, and they are now the em bodiments of the great truths spoken at its cradic—"that all men are created equal; that they are endowed by their Creator with certain inalienable rights, among which are life, lib-crty and the pursuit of happiness; that for the attainment of these ends governments have been instituted among men, deriving their just powers from the consent of the governed Until these truths are cheerfully obeyed, or, if need be, vigorously enforced, the work of the Republican party is ununished. 3. The permanent pacification of the Southern section of the Union, and the complete protection of its citizens in the free cujoyment of all their rights are duties to which the Republican party stands sacredly pledged. The power to provide for the enforcement of the principles embodied in the recent constitu-tional amendments is in the Congress of the United States, and we declare it to be the solemn obligation of the Legislative and Ex-ecutive Departments of the Government to put into immediate and vigorous use all their constitutional powers for removing any just constitutional powers for removing any just causes of discontent on the part of any class, and for securing to every American citizen complete liberty and exact equality in the exercise of all civil, political and private rights. To this end we imperatively demand a Congress and a Chief Executive whose courage and fidelity to these duties shall not falter until these results are placed beyond discause.

until these results are placed beyond dispute or recall.

4. In the first act of Congress signed by President Grant, the National Government as sumed to remove any doubts of its purpose to discharge its just obligation to public creditors, and solemnly pledged its faith to make provi-sion, at the earliest practicable moment, for the redemytion of United States and the tion of United States notes in coin. Commercial prosperity, public morals and the national credit demand that this promise be fulfilled by a continuous and steady progress to specie payment.

Under the Constitution the President and heads of departments are to make nomina-tions for office, the Senate is to advise and consent to the appointments, and the House of Representatives is to accuse and prosecute faithless officers. The best interests of the public service demand that these distinctions be respected, and that Senators and Representatives, who may be judges and accuser should not dictate appointments to office. The invariable rule for appointments should have reference to the honesty, fidelity and capacity of the appointees, preferring friends of the party in power for places where harmony and vigor of administration require its policy to be represented, but permitting all others to be filled by persons selected with sole reference to the efficiency of the public service and the right of all citizens to share in the honor of rendering faithful service to their country.

 We rejoice in the quickened conscience of the people concerning political affairs, and will hold all public officers to a rigid responsibility, and engage that the prosecution and punish ment of all who betray official trusts shall be ment of all who betray official trusts about the speedy, thorough and unsparing.
7. The public school system of the several States is the bulwark of the American Republic, and, with a view to its security and perma-mence, we recommend an amendment to the Constitution of the United States forbidding

the application of any public funds or property for the benefit of any schools or institutions under sectarian schools.

8. The revenue necessary for the current expenditures and the obligation of the public debt must be largely serived from duties on importations, which, so far as possible, should be adjusted to promote the interest of American later and advance the prosperity of the

whole country.

9. We reasilirm our opposition to further grants of the public lands to corporations and monopolies, and demand that the national do-main be devoted to free homes for the people. 10. It is the imperative duty of the Government to modify existing treaties with European Governments, that the same protection shall be afforded to the adopted American citizen that is given to the native born, and that all necessary laws should be passed to protect immigrants in the absence of power in the States for that purpose.

11. It is the immediate duty of Congress to

investigate the effect of the immigration and importation of Mongolians upon the moral and material interests of the country.

12. The Republican party recognize with approval the substantial advance recently made toward the establishment of equal rights for women, by the many important amendments effected by Republican Legislatures in the laws which concern the personal and property relations of wives, mothers and willows, and by the appointment of women to the superinby the appointment of women to the superna-tendence of education, charities and other hub-lic trusts. The honest demands of this class of citizens for additional rights and privileges and immunities should be treated with respectful consideration.

ful consideration.

13. The Constitution confers upon Congress sovereign power over the Territories of the United States for their government. In the exercise of this power, it is the right and the duty of Congress to prohibit and extirpate in the Territories that relic of barbarism, polygamy, and we demand such legislation as shall secure this and and the supresserved. secure this end and the supremacy of American institutions in all the Territories.

14. The pleages which the nation has given o our soldiers and sailors must be fulfilled to our solders and sailors must be fulfilled. The grateful people will always hold those who periled their lives for the country's prezervation in the kindest remembrance.

15. We sincerely deprecate all sectional feeling and tendencies. We therefore note with deep solicitude that the Democratic party counts as its chief hope of success on the electoral vote of a united South, secured the refer to the effects of these who was recently through the efforts of those who were recently arrayed against the nation; we invoke the earnest attention of the country to the grave truth that a success thus achieved would open sectional strife and imperil the national

nonor and human rights.

16. We charge the Democratic party as being the same in character and spirit as when it sympathized with treason; with making its control of the House of Representatives the triumph and the opportunity of the nation's recent foes; with reasserting and applauding in the National Capitol the sentiments of un-repented rebellion; with sending Union soldiers to the rear and promoting Confederate soldiers to the front; with deliberately pro-posing to repudiate the plighted faith of the Government; with being equally false and imbecile upon the overshadowing financial question; with thwarting the ends of justice by its partisan mismanagement and obstruc-tion of investigation: with proving itself, through the period of its ascendancy in the Lower House of Congress, utterly incompetent to administer the Government. We warn the country against trusting a party thus alike unworthy, recreant and incapable. 17. The National Administration merits

commendation for its honorable work in the management of our domestic and foreign offines, and President Grant deserves the con-Cor. Pennsylvania Ave. GOLD AND SILVER PLATING

Judgment of the Public! During the past five years the public have care-fully observed the wonderful cures accomplished from the use of Vegetine. From its use many au-afflicted sufferer has been restored to perfect health, after having expended a small fortune in procuring medical advice and obtaining poisonous mineral medicines. It is now justly remarked by all classes of people that Vegetine holds a higher position in the estimation of the public than any other medical compound, and it has won its great reputation and inmense demand from actual merit.

Mr. Waiker's families. the use of Vegetine in the Rev. Mr. Waiker's family, who now pronounces tinyalunder:

I feel bound to express with my signature the high value I piace upon your Vegetine. My family have used it for the last two years. In nerrous debility it is invaluable, and I recommend it to all who may need an invigorating, renovating tonic.

A Walking Miracle.

Mr. H. R. Stevens:

DEAR Sile: Though a stranger, I want to inform you what Vegetine has done for me.

Last Christmas Scrofula made its appearance in my system—largely running ulers appearing on my. as follows: One on each of my arms, one on my high, which extended to the scat; one on my left leg, which became so bad that two physicians came to ampurate the limb, though upon consultation concluded not to do so, as my whole hody was so fall of Scrofula; they deemed it advisable to cut the sore, which was painful beyond description, and there was a quart of matter run from this one sore.

The physicians all gave me up to the, and said they could do no more for me. Both of my legs were drawn up to my seat, and it was thought if I did get up again I would be a cripple for life.

When in this condition I sawer, and followed on with it mill I had used sixteen bottles, and this morning I am going to plough corn, a well man, All my townsmen say it is a miracle to see me around walking and working.

In conclusion, I will add when I was enduring such great suffering from that dreadful disease, Scrofula, I prayed the Lord above to take me out of this world, but as Vegetine has restored to me the blessings of health, I desire more than ever to live, that I may be of some service to my fellow-men, and I know of no better way to aid suffering humanity than to inclose you this statement of my case, with an earnest hope that you will publish it, and it will afford me pleasure to reply to any communication which I may receive therefrom.

Lam, sir, very respectfully,

July 10, 1572.
